

TURN YOUR HCM SYSTEM INTO A STRATEGIC ADVANTAGE

Application Management Services

Make the Most of Your HCM Investment

Your CatalystOne system is a powerful tool – but it's what you do with it that unlocks real value. Application Management Services are designed to help you grow, evolve, and succeed over the long term. Whether you're short on time, expertise, or internal resources, we're here to help you stay ahead.

With Application Management Services, you gain more than support. You gain a partner that knows your business, your goals, and how to make your system work better for you.

Why Choose Application Management Services?

We've seen what works – and what doesn't when it comes to HCM success. Application Management Services are built around the strategies, tools, and expert guidance that deliver lasting results.

Dedicated HCM Experts

Ongoing access to professionals who know your system and your setup.

Smarter Use of Data

Get help interpreting your people data and turning it into actionable insights.

Release Management with Impact

Make the most of new features and upgrades, aligned with your business goals.

Health Checks & Integration Overview

We ensure your system stays in top shape – and continues to support your evolving needs.

User Engagement Support

Boost adoption and engagement with tailored strategies that really work.

Responsive Help

Fast answers when you need them, from people who understand your environment.

Always-on Improvement

Keep optimising and growing without needing to start from scratch every time.

The Value You Get

It's not just about getting help. It's about getting ahead. Application Management Services are designed to save you time, reduce risk, and deliver real results across your organisation.

Maximize ROI

Prove & improve the value of your HCM system to your business.

Continuous Improvement

Stay agile and evolve with your organisation, supported by experts.

Reduced Risk, Better Compliance

Keep ahead of regulations & avoid costly errors with proactive guidance.

Faster Learning Curve

Build internal knowledge with personalised coaching and support.

Industry-Aware Solutions

Best practices tailored to your sector, not just a generic playbook.

Time Back for HR

Spend less time troubleshooting, and more time driving strategic initiatives.

Better Workflows, Fewer Errors

Optimise your processes and avoid inefficiencies before they happen.

Strong and Resilient Teams

Upskill your people, retain knowledge, and keep momentum going – even during times of change.

What Our Customers Say

**SVENSKA
SPEL**

"We chose a solution and a partner that gives us both flexibility and security. With Application Management Services, we get the best of both worlds: continuous improvement and predictable operations."

Åsa Engström
Product Owner, Svenska Spel
